

MAGNUS HD ZIP

MAGNUS HD ZIP is a space-saving, quick and user-friendly tool for manual inspection in superb HD quality.

With HD you get an extremely sharp image with unsurpassed colour rendition. What you see on the monitor is exactly what is under the camera - without distortion, delay or interference.

The built-in autofocus ensures a sharp image regardless of magnification size.

MAGNUS HD ZIP is a simple and user-friendly system. The simplicity and intuitive control buttons enable you to operate MAGNUS ZIP without any further training and you do not need any time to adjust to using it.

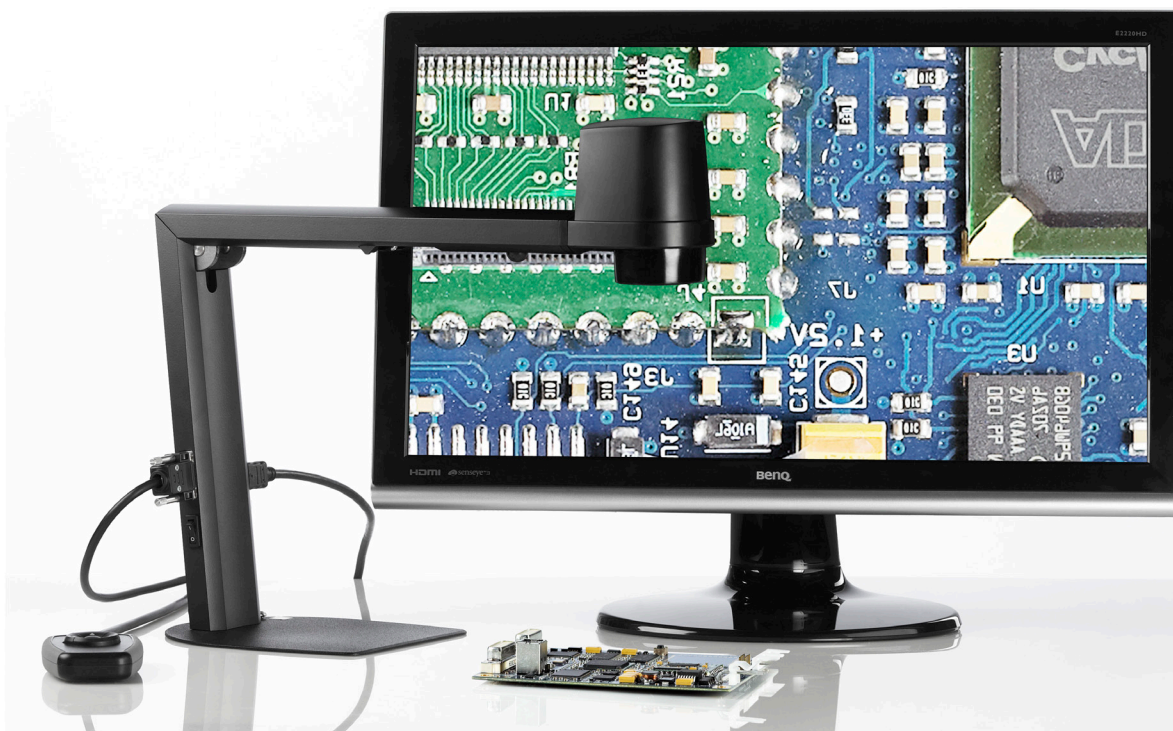

Enhanced Cooperation

An added bonus of MAGNUS HD Zip is the multi-viewer option which allows more than one person to view the magnified object at the same time. This feature is ideal for training of new operators, sparring between operators or supervision sessions.

The option of dialogue and cooperation brings new and more dynamic ways of working and easier quality control.

MAGNUS HD ZIP is a simple and user-friendly system. The simplicity and intuitive control buttons enable you to operate MAGNUS HD ZIP without any further training and you do not need any time to adjust to

MAGNUS HD ZIP is a space-saving HD magnification system which is well suited for manual optical inspection of industrial parts.
